SECRETNPIC/OS-270-64
30 December 1964**MEMORANDUM FOR THE RECORD****SUBJECT: Priority of Processing Missions 1015-2 and C374C**

I received a call from [] this date reference to processing at Eastman Kodak during 1 January 1965. Eastman Kodak will not shutdown for this period. Due to the arrival of Mission 1015-2 at EK on 31 December 1964 and Mission C374C arrival on 1 January 1965, [] felt an evaluation of the processing of Priority 1 of each mission should be made by NPIC and EK notified. A discussion was held with [] to familiarize him with the situation. Consideration was to determine if Priority 1 of C374C should be processed prior to the Priority 2 of 1015-2. Coordination with [] TID revealed no difference as far as the PET was concerned since they were already on site at EK from 1015-1 and would remain there until finished with 1015-2 and C374C. Discussion with [] PAG also disclosed no particular need to move C374C Priority 1 ahead of Priority 2 of 1015-2. It was agreed to make no changes of Priority 1 and 2 on either mission. This info was then telephoned to [] then advised me to inform EK (Green) by cable of the following duping priorities: 1015-2 Priority 1 and 2, then C374C Priority 1 and 2, then the remaining requirements of 1015-2 followed by the remainder of C374C. The cable to reflect statement signifying coordination and concurrence by []
